

## Green Career Opportunities - *Internship Program*

The Watershed Project's internship program is tailor-made for talented undergraduates, graduates, and beginning professionals looking for hands-on work experience and specialized training. It is a great way to test the waters for a career serving the environment.

Interns learn about and gain experience in:

- Non-profit management and operations
- Environmental and watershed education
- Marketing and communications
- Watershed management

Our program gives interns the maximum educational benefit by placing them in positions where they work under the guidance of our professional staff on projects that fit their professional interests and skill sets.

### ***Areas of Internship Focus***

**Communications:** This focus area is great for anyone who is passionate about environmental issues and is interested in learning about how a small nonprofit operates.

**Development:** Work with our development team on fundraising endeavors, including researching grant opportunities, grant writing, soliciting in-kind donations, cultivating corporate sponsorships, individual donations, and planning special events.

**Watershed Education:** Support our education team in planning and teaching our award-winning watershed curriculum to K-12 students.

**Healthy Watersheds:** Work with our Healthy Watersheds team to assist with volunteer outreach and publicity for community events.

**Outreach:** Help connect East Bay residents with the watershed movement. This focus area is perfect for anyone interested in environmental writing, communications and marketing, and/or community organizing.

**Wild Shorelines:** Get involved in the restoration of native oysters and educating the local community about their connection to the shoreline.

### **To Apply**

Please send a resume and cover letter expressing your professional interests, skills, and experience via email to Juliana Gonzalez at [juliana@thewatershedproject.org](mailto:juliana@thewatershedproject.org) with "TWP Internship Program" in the subject line.
